Comments

Rare color, exceptionally well maintained with extensive records from new and much recent repair work. This is a terrific daily driver that has been owned by three mature owners, all of which have kept it in a garage in southern climate. No rust. All major work that you would expect to do between 100-150K miles has been done. Wiring harnesses, timing chain, transmission, many new suspension parts, radiator and too much to list. All fluids have been religiously changed ahead of any recommended schedule. This is the only 500E this color I have ever seen, and for those who know the rarity of it are amazed by this color combo. If you have an appreciation for these rare cars, and want some reassurance of buying one with over 100K miles, then this is the perfect car, as there is not much left to be repaired in the next 100K miles. Buy with confidence. \$17,900 OBO.
