Disability equipped:	No		
Options			
Leather seats	CD player		
Safety features			
Anti-lock brakes	Driver airbag	Passenger airbag	
Power options			
Air conditioning	Cruise control	Power locks	
Power windows	Power seats		

This auction is for one Very Special and Very Rare Black Metallic over Black leather 1993 Mercedes Benz 500E which is said to have been formerly owned by Alex Van Halen the drummer of the World Famous Rock 'n Roll band Van Halen. This car was specially modified to accomodate a Super High End \$8,500.00 Stereo sound system which included a top of the line Eclipse in dash stereo multi speaker sound system with power booster and high end EQ system with the equalizer being custom installed into the upper part of the inside rear trunk shelf area. The car also sports 18" Brabus wheels with Michelin 275/35/R18 Pilot Sport tires in the front and 245/40/ZR8 Pilot Sports in the rear. Additionally the car also sports a Brembo Brake system with ventilated discs. The car has a little over 133,000 actual miles on the

odometer most of which are freeway miles. The exterior Black Metallic paint is in stunningly beautiful condition with the full Black leather interior being like new! Here is a list of the most recent work performed on the car: Installation of a New water pump, New Radiator, New water pump idler housing, Rebuilt Air Pump and a New fan belt. The engine is super responsive and runs very strong with the transmission shifting smoothly behind it. The steering is like wise very responsive with the ride of the car being very smooth and solid. The car has a Salvage title on it due to it having formerly been involved in a very mild front end fender bender. The accident was so minor that it didn't even deploy the Air Bags! There was no inner structural damage done to the front end of the car with the only items needing to be replaced being exterior front end parts which consisted of front head lights, front grille, front bumper plastic cover, radiator support and radiator. The new front bumper cover was painted to match the factory color of the car prior to it being installed. The 500E was created in close cooperation with Porsche. Each 500 E was hand-built by Porsche, being transported back and forth between the Mercedes plant and Porsche's Rossle-Bau plant in Zuffenhausen during assembly---taking a full 18 days to complete each model. Design began in 1989 and into 1991. Between 1992 and 1995, Mercedes/Porsche built a total of 10,479 500 E's. Of these, 1505 of the "super" sports sedans were imported into the USA between 1992-1994, or roughly 500 cars per year of importation. You would be hard pressed to find a nicer example of this high end Sport Model W124 chassis Mercedes Benz vehicle. If you are looking for a one of a kind beautiful 500E that has everything going for it including a very important link to a World Famous Classic Rock star then look no further! This Black Diamond Jewel is for you! This beautiful car is being offered to

you on a "Buy It Now" or "Best Offer" type auction so Enjoy the bidding and good luck! Please note that we do reserve the right to end the auction early at any time due to the fact that we have it listed locally for sale as well. If you have have any additional questions or would like to see the car in person please feel free to contact us via email for an appointment or give us a call at 805-402-6836.

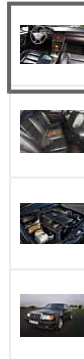

Safe Buying Tips for Vehicles

- 1 **NEVER** pay for a vehicle by instant cash transfer, such as Western Union or Moneygram.
- 2 **ALWAYS** check the My Messages section in your My eBay page to confirm any emails from us requesting account information.
- 3 **GET** a vehicle history report before purchasing a used car (1981 or later).
- 4 **BEWARE** of fraudsters who send fake email messages claiming to represent or offer escrow services as part of eBay's Vehicle Purchase Protection program.

Be safe - get all the tips
