Seller's description

For Sale very rare 1987 MB. 6 cylinder super turbo diesel. Only one in the US!

Mileage listed is not correct, the speedometer was replaced a year ago. Total mileage of the car is little less than 200.000 mi.

The car is professionally built and equipped by Finnish racing professionals.

Engine machinery was made by <http://www.moslerauto.com/>. The engine was totally rebuilt and all mounting brackets were replaced. Transmission and Fuel Pump were shipped to Finland to be rebuilt and strengthened. Diesel pump by

Mynadiesel.

Every single bushing and ball joints were replaced in the axles. Prop. shaft bushings and shock absorbers, all new!

Brake disks and pads, all new.

Recently mounted 4 new tires.

The car is totally rust free! No rust anywhere!

Special large inter-cooler with 2 electric fans.

Dynamo-meter tested, 302 hp measured at rear wheel. Turbo pressure about 1.5 bar. Can be adjusted up to 2.0 bar, which means it will provide over 400 hp without problems.

My friend has exactly the same car, diesel pump and drive train in Finland but his car has metal engine head gasket. Boost is 2.8 bar and car gives out 512 hp!

Very rare opportunity to purchase powerful turbo diesel in the USA. Don't miss that opportunity. This car was built by true professionals. I really don't want to sell this car but I have no place to store it.

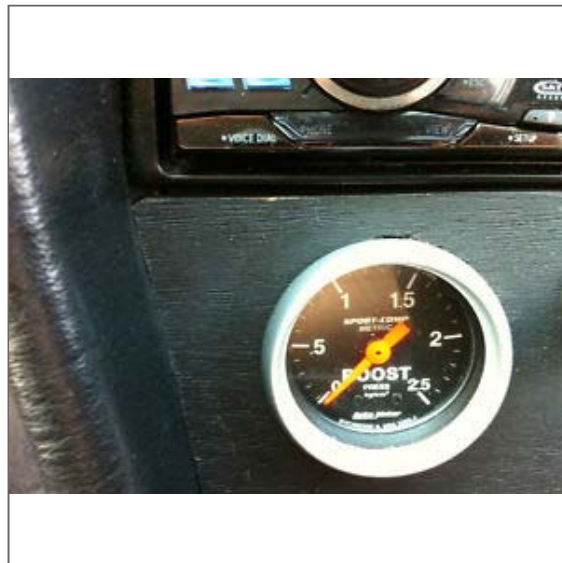

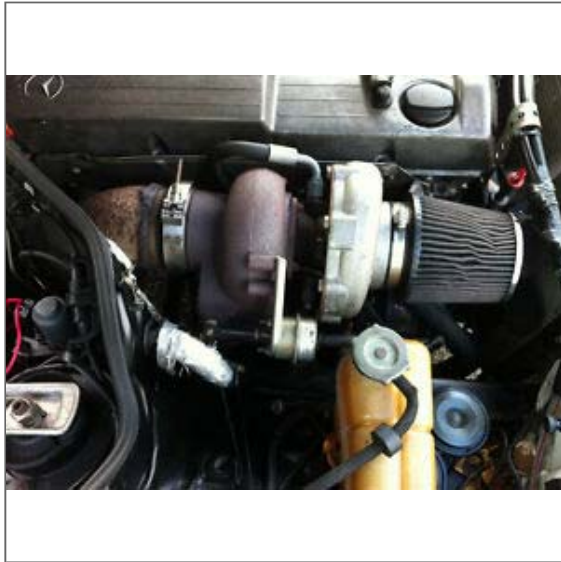

Total cost of building the car was about \$15.000,00.
