4.2 Stage Three AMG E400 1995 model / 2 owner / end of production (W124) / Final model / 61,300 km run / real thing July 22 AMG car dealer Japan (table 73) Vehicles AT / speed handle / 4 left // Brilliant Silver Interior Color / Color: Black Leather Exterior / walnut wood panel / power steering / power windows / auto air conditioning / air bags (driver's seat, passenger seat) / ABS / sunroof / mirrors / electrically adjustable heated seats full power seats / driver (seats) / headlight wiper / security / passenger seat audio / CD Changer / DVD Navi / ETC / wood combination steering / Wood Shift Knob / weather guard / genuine / accident / genuine tool / spare tire / jack / record AMG M119 E42 4,195 cc liquid-cooled V-type 8-cylinder DOHC engine maximum torque 43.3kgm/4.000rpm 312ps/5.750rpm maximum output (E400 normal, 285Ps/42.0Kgm) AMG sports exhaust system suspension kit AMG AMG 300km / h speedometer (Black) AMG 17 in. two-piece aluminum wheels AMG Aero (front spoiler, side skirts, rear skirt) AMG Wood & leather combination steering AMG engine cover AMG emblem fender arch made by AMG rubber (rubber only 95 models) ! are receipt of a long time AMG E400 4.2 S3 (Final model of stage three). Vehicle by AMG in Japan regular imports, it is a single of the who's who and who clearly two owners of course. 800km! When and what was in the hands of the owners of the second generation from the original owners, the slightly run then, by the second generation owners, has been cherished ride. To paint the exterior we found the degradation of some clear indeed, we were repainted by us. But there is an eye-opener to the goodness of the condition of the agency system. That is different from the smooth, lightly turn the Mercedes V8 engine that has been tuned by AMG, the dander is up to before the red zone Bua~tsu Innovation comfortably. Itself also hitch a mechanical 4-speed AT shifts smoothly up accordingly. In addition, because it is changed to the same 2.82 E500 (2.24 normal) is the final acceleration that can experience significantly higher than the value of the engine power catalog. And acceleration are numb to feeling good, far exceeding the legal speed quickly (^ ^) meter is pointing to a number of intense acceleration starting the first speed is greater than the E500. This? May fit more than 500 rode once ? AMG do not think such a rare complete, and I want to ride once the exterior, so we have to repaint part as described above, it is a beautiful thing. There are some scratches on front spoiler, I do not particularly stand out. Extrusion of the design is not so strong so even AMG becomes too late 124, can be used well in daily use. Aluminum, clear of the rim or the pain of fate has come out. Repair are also available upon request. 2-piece aluminum because it is difficult to obtain, I want to make use of all means. The interior is very nice condition. Although some tension sag seen in the heavens, 124 sky began to sag upholstered noticeable every car recently. With that said, here are happy to refresh and Oosame whack delivered before us (^ ^) to worry. Others, such as leather seats and wood paneling is very beautiful. Virtually no sag and thread. It is the part that can feel the love from the previous owners of this area. There is no smell and dirt also something of course. Please take comfortably. Institutional system, a place of delicious AMG Stage Three has maintained a condition that can be enjoyed freely. Defect is not found in particular places at present, delivered before us, ! I will refresh each consumable parts and oil and water, crisp ♪ Please enjoy the running of stage three freely W124 AMG body of the prestigious Complete to love the car! dying is a gem became less of individual W124 remarkably good condition. Stage Three of

rare regular thing, you might get the last chance. (Excluding tax) 11,900,000 yen retail prices when car Copyright © GARAGE CURRENT CO., LTD.
