

Revisions, Body – Assembly jobs I Model 124

This microfiche replaces microfiche no. 07 102 2488 08.

The previous microfiche has been revised so that it is no longer valid and should be destroyed. Items of the Trouble Diagnosis have been integrated.

For repair orders always use the operation numbers given on the microfiches "standard texts and flat rates".

A survey of the revisions and supplements is given in key words below.
