

# FSS PLUS Displays (Customer)

- Customer display
- Codes A-H are displayed
- Accessed using the multi-function steering wheel (as before)

# Interpreting Service Codes

- Determined by the maintenance calculation
- Each service code has a corresponding estimated time
- “+” next to a service code indicates need for brake service (inspection)
  - i.e. D+

Note: Service codes are used for estimating time ONLY. They do NOT indicate the same service items for each code. Service items are determined by time and driving conditions.

# Accessing Workshop Information Multi-Function Displays

1. Begin at the customer display screen

2. Press and hold the reset button for 5 seconds

3. Use the multi-function steering wheel for scrolling
