27T96121 Electronic Transmission Control
Module (N15/3) ordering Information

Transmission 722.6

12/96

This topic was previously Administrative Message #341, September 03, 1996, titled: PARTS ORDERING INFORMATION FOR A VARIANT CODED ELECTRONIC TRANSMISSION CONTROL MODULE (N15/3) USED IN ALL THE 722.6 TRANSMISSIONS

Effective Tuesday, September 3, 1996, all Variant coded Electronic Control Modules for the 722.6 transmission have been blocked to prevent regular MB Net ordering.

The Baltimore PDC will now be responsible for providing Variant coded Electronic Control Modules for the 722.6 transmission. Only the following transmission control module part numbers (listed in the following tables) are to be ordered directly from the Baltimore PDC via Fax , Fax number **410-850-4238**

The following information is required when ordering a Variant coded Transmission Control Module:

- 1) PART NUMBER OF TRANSMISSION CONTROL MODULE
- 2) CUSTOMER NAME
- 3) FIRST 6 DIGITS OF BAUMUSTER FROM CUSTOMERS VEHICLE

Uncoded Control Modules which can be coded in the dealership via HHT must also be ordered via Fax by supplying the part number only.

Note:

Only the Transmission Control Module can be ordered in this procedure. Do not attempt to include an order for the valve body or any other parts in this Fax. It is no longer necessary to use suffix 26 plus VIN when ordering these control modules.

If it is necessary to replace the Electronic Transmission Control Module (N15/3), please use the following charts to locate the part number and variant code (version code) for the model in question.

Transmission control module:	017 545 06 32
To be used with valve body:	140 270 04 06

Model (baumuster)	Sales Designation	Variant Code	Software Version
210.072	E 420	f 36	f 07 f 09
140.043	S 420	f 45	f 07 f 09
140.051	S 500	f 24	f 07 f 09
140.070	S 500 C	f 24	f 07 f 09
129.067	SL 500	f 34	f 07 f 09
140.057	S 600	f 23	f 07 f 09
140.076	S 600 C	f 23	f 07 f 09
129.076	SL 600	f 33	f 07 f 09

Note: Transmission control module 017 545 05 32 must be replaced with 017 545 06 32 and should only be used with valve body 140 270 04 06

Transmission control module:	021 545 04 32
To be used with valve body:	140 270 07 06

Model (baumuster)	Sales Designation	Variant Code	Software Version
210.020	E 300 Diesel	d 06	e02 e13

Transmission control module:	020 545 88 32
To be used with valve body:	140 270 04 06
(Production date after approx. July 22, 1996)	

Model (baumuster)	Sales Designation	Variant Code	Software Version
202.028	C 280	e 50	e02 e22
210.055	E 320	e 53	e02 e22
140.032	S 320 short	e 54	e 02 e22
140 033	S 320 long	e 54	e 02 e22
129.063	SL 320	e 55	e 02 e22

Note: Before approx. July 22 production date: Transmission control module 017 545 85 32 is replaced with 020 545 88 32 and should only be used with valve body 140 270 04 06

Installation Note:

After installation of the Variant coded Electronic Transmission Control Module, the Hand Held Tester (HHT) must be hooked up to the vehicle and the DTC's must be erased from the memory of the Transmission Control Module. DTC's may be stored during the Variant coding procedure and would keep the vehicle in limp home mode if not erased.
