Seller's description

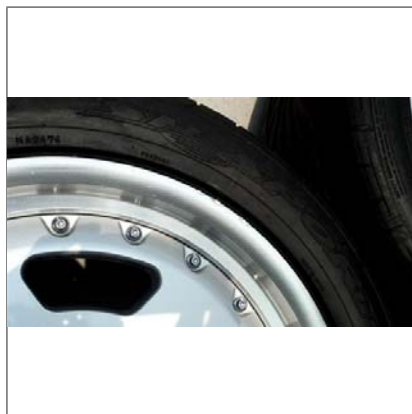

A rare set of authentic AMG two piece wheels manufactured by BBS. Creative late model VW and Audi owner have used these wheels as they are a direct 5 x 112 fitment. The size is 18" by 8.5" with a +44 offset. A true two piece wheel, the centers are easily removed for custom paint or powder coating. There is a polished and

clear coated lip on each wheel, two of them are slightly cloudy, you can only really see it by starring at it in direct sunlight. There is an approx. one inch section of very minor curb rash on one of the wheels (picture taken). All wheels are in excellent condition and are completely presentable and useable as they are. They came off of a CL500 and have been in storage for the last ten years. The tires are NOT included with the sale, they have been left on for the protection of the wheels and will be removed before shipping.
