Full leather

interior color:

black

Features

ABS, trailer hitch, El. Windows, El. Immobilizer, leather upholstery, alloy wheels, navigation system, sunroof, power steering, heated seats, cruise control, central locking, driver airbag

Vehicle description:

Hello separate me from my heavy heart T-124 series Model Special Vehicle 1.7 AMG. This vehicle is a special production of AMG & Kicherer, based on a 200 TE. The vehicle was purchased from the outset for this special tag. The vehicle received a new engine from the company MKB, who also made the original engine conversion. The vehicle is equipped with the optical parts of a 500-E and the technology conversions are identical with those of a 600 SL. The 200 MW comes from the factory with all the extras be ordered, except heater,. It is really quite unique with a V12 engine, which was otherwise only by Brabus in the 124 series sedan. In order to visit the motor vehicle is stopped after the renovation still at the company MKB, which also give you information on the vehicle. Otherwise, I'm willing to give on the phone for further information.
